---

👤 PROFILE

Versatile and results-driven **Software Developer | Full Stack Developer** with experience building scalable web and mobile applications using technologies like React, React Native, Next.js, Node.js, Flutter, and MongoDB. Skilled in developing responsive UIs, RESTful APIs, and real-time features with strong problem-solving and optimization abilities. Proficient in mobile and web development with a focus on clean code, security, and performance.

💼 PROFESSIONAL EXPERIENCE

Sep 2025 – Present
Full–time | On-site
Mumbai, India

Uttam Infotech Global Ventures Pvt Ltd — Software Developer
Working as a Software Developer in the Software Development team.
Developing and maintaining **mobile applications using React Native**.
Building **responsive user interfaces with React.js and Next.js**.
Working with backend technologies like **Node.js, Python, and REST APIs**.
Managing data with **PostgreSQL, SQL, and MongoDB**.
Collaborating with the team to deliver **scalable and efficient solutions**.
Gaining hands-on experience in **full-stack and mobile development**.

Aug 2025 – Sep 2025
Internship – Remote

Cognifyz Technologies — Software Development Intern
Worked on software development tasks including CRUD applications, file handling, and web scraping.
Implemented coding logic, testing, and debugging; enhanced problem-solving skills through level-based projects.

Jul 2025 – Aug 2025
Internship – Remote

SaiKet Systems — Full Stack Development Intern
Built responsive UIs using HTML, CSS, Bootstrap/Tailwind, and React.js.
Developed REST APIs using Node.js & Express, integrated MySQL/PostgreSQL, and created a full-stack User Management System.
Used GitHub for version control and task tracking.

Jun 2025 – Jul 2025
Internship – On-site
Mumbai, India

RCAS LLP — App Developer Intern | Flutter Developer
Developed cross-platform apps with Flutter & Dart, integrating Firebase, Firestore, and MongoDB.
Implemented business logic, backend connectivity, and native integrations via Android Studio & SDK/NDK. Collaborated with UI/UX team for smooth, intuitive designs.

🎧 SKILLS

- **Programming Languages:** JavaScript, TypeScript, Python, HTML, CSS, Node.js.
- **Frameworks/Libraries:** React, React Native, Next.js, Flutter, Express.js, Angular, Bootstrap.
- **Database Technologies:** MongoDB, PostgreSQL, MySQL.
- **Tools & Platforms:** Git, Docker, Postman, VS Code.
- **Technologies & Concepts:** REST APIs, JWT Auth, CRON Jobs, Responsive Design.
- **Other**: MS Office, Data Analysis.

📁 PROJECTS

Threads – Real-Time Chat App
Tech Stack: MERN, Socket.io, Chakra UI, JWT | **Role:** Full Stack Developer
- Built a social app with post creation, real-time chat, notifications, and dark/light mode.
- Integrated JWT for authentication and Socket.io for live messaging.

Socially – Social Media Platform
Tech Stack: Next.js, PostgreSQL, Prisma, Clerk **| Role:** Full Stack Developer
- Developed a scalable social media app with API integration, file uploads, and caching.
- Used Prisma ORM and Clerk for authentication and optimized UI performance

Bookstore – React Native App
Tech Stack: React Native, Node.js, Express.js, MongoDB, JWT | **Role**: Full Stack Developer
- Built a mobile/web bookstore app with auth, CRUD, media uploads, infinite loading, and theme support.
- Deployed secure backend with CRON jobs and free API hosting.
